Are there any grad students we can reach out to for references as stakeholders.

1st year - interface, used labview
a few bugs (unsolved)

module 1 & 2 good, 3 needs work

finish integrating with 2nd
mech instrument

client has no python exp

uses mass spectrometer

too detailed

features!

- Update for glitch
 - v quick (next 2 weeks)
- Package 2 is unfinished
 - calculations & data need work
- Module 3 needs work
- executable instead of script
- Add 2nd mass spectrometer
 - decode different data type
 - framework is done
 - needs integration
 - convert to other style
- stretch: 3 other instruments merge data

come to lab meeting
to present & inquire

Wednesday 9-11am
every 2 weeks
